

Pinion Pine Fire

Standard Operating Procedure
2012/13 revision

23 - STANDARD ON RETURNING TO SERVICE

PURPOSE: To ensure the apparatus is in ready state for the next incident

SCOPE: All Personnel

After a call, the equipment of the Pinion Pine Fire District shall be placed back in service, in a ready status as timely as possible.

1. All firefighters are required to report to the station and to assist in the clean up and assist in the preparing of equipment to a ready status unless excused by the Chief or his designate.
2. Fire apparatus shall be re-filled with water after every use.
3. Fire apparatus shall be maintained with fuel levels greater than $\frac{3}{4}$ of a tank.
4. All fluid levels shall be checked at the end of a session.
5. All reports shall be filled out while information is fresh.
